22 speaking stops

Electric key action to Swell and Great

Electro Pneumatic action to Pedals

Compass 56/30

### *Dimensions*

Width 14 ft

Depth 19 ft

Height 12 ft

The church was closed in 2010 and the building is to be sold.

The organ has since then been unused and now has a persistent cypher, but is accessible for inspection.

It was serviced regularly by Michael Fletcher of Halifax who, in 1992, rebuilt the organ after water damage, converting the action from tracker to electric and providing several extension stops on the pedals.

The small keyboard visible above the music desk is a reflection in the mirror!
